

Omni Trafikmiljö

Omni Trafikmiljö supplies Swedish-made street furniture for public transportation. The range includes everything from stop signs to weather protection and smaller terminal buildings. We supply to the public transport authorities and municipalities across Sweden.

Our keywords are quality, superior service and competitive prices. We have the expertise to create an effective and pleasant traffic environment. Our strength is that we combine modern design with robust and durable construction.

Our products require minimal maintenance, which ensures the function and prolong the lifespan. Our high degree of prefabrication results in short assembly and installation times.
