## Per Wikstrand AB

Per Wikstrand AB manufactures roof safety products and firewood processing machines. We have a complete range of roof safety products in hot dip galvanised and painted steel in stock. Cutters, splitters, combined cutting and splitting machines as well as conveyors are included in the range.

Per Wikstrand is based in Mora, Sweden and has been active in the roof safety sector since the mid-80s. Our roof safety products are P certified according to Swedish standards, and CE marked where possible.

In our factory quality is always in focus and permeates the entire production chain. Per Wikstrand's goal is to be in the forefront of manufacturing, development and sales, and continue to strengthen the company's strong brand.
