

Weland AB

Weland AB is a solid family company with factory and headquarters in Smålandsstenar. We are a leading manufacturer and supplier of spiral staircases, straight flight staircases, railings, gangways for disabled people, gangways, gratings and mezzanines. Weland is also one of Sweden's largest players in the field of sheet metal working.

With our own rational production, the customer must see us as a long-term and environmentally friendly supplier. Weland's goal is to be flexible and provide

the same service to all our customers, large and small.

Since our start in 1947, we are working intensively to develop our products. Production must be rational and environmentally friendly.

In Smålandsstenar the pressure welded grating, which forms the backbone of Weland's business, has been in production since the 1960s. Today we can offer sheet metal processing with laser, punching, bending and machining on subcontract basis.
