

Kåbe-Mattan AB

Kåbe-Mattan AB is the company which knows entrance mats, both practically and theoretically. Since our start in 1944, handicrafts, product development and quality have remained in focus. We are the market leader in Sweden with own production of entrance mats.

We offer a complete range of entrance solutions from Kåbe Mat Original to our special grid with scraper strips and anti-skid protection of ribbed rubber. At Kåbe-Mattan we use modern technology to develop good and cost-effective entrance solutions that will last long-term, for a better indoor environment.

Our goal is to work as environmentally friendly as possible. Our entrance mats are therefore 100 % recyclable and with up to 10-year warranty. We accept and recycle your old mat when you are done with it.
