## SP Maskiner AB

SP Maskiner AB is a supplier of Swedish-made harvester heads. Our concept is to supply harvester heads that fit harvesters of all makes and models. In 1980, SP Maskiner manufactured the world's first single-grip harvester head, the SP21, which revolutionized forestry.

Today SP Maskiner is a well-known international brand with retailers worldwide. Our strength lies in our modern product range and our responsiveness. Our product range covers all felling types and conditions.

With our motto "Always ahead" we are continually developing and are at the forefront of technology development in our segment. We strive to always take the technology and efficiency to the next level. We are driven to create innovative solutions for our customers, now and in the future.
