

Weland Aluminium AB

Weland Aluminium AB is a provider of functional solutions for both new production and renovation of buildings. Our range includes balconies, glazing systems, railings, staircases and gangways for disabled.

With the customer and aesthetics in focus, we deliver Swedish-manufactured products of high quality. Our concept is the same since our start - to deliver quality aluminium products with a long durability. All our products are CE marked according to EN 1090.

We do our utmost to develop flexible and creative solutions which creates beautiful and functional homes. For us safety is always the focus. We always strive to deliver as safe solutions as possible and to meet future demands for sustainability and design.
