

## Hogstad Aluminium AB

Hogstad Aluminum AB is one of the most experienced companies in the balcony sector. Our product range includes balcony railings, glazing systems, window lining in aluminum and balconies in concrete. Our products are made in Mjölby, Sweden.

We offer a complete product range for balconies and we take responsibility all the way from design to finished installation. We can offer advantageous solutions and attractive living environments, both for

renovation and new construction. Hogstad Aluminum listen and are always focused on development.

Functionality, aesthetics and good real estate economics are our watchwords. We are members of Balkongföreningen that promotes a high level of efficiency and where the goal is for the user to feel safe and secure. Hogstad Aluminum is certified by Nordcert according to EN 1090.
