

Skylink AB

Skylink AB is a wholesale business with office and warehouse in Mölndal, Sweden. Our business idea is to be a reliable supplier of equipment for building automation, entry phones and access control systems.

We also offer a wide range of equipment for cable television headends, cable TV and fiber. Our guiding principle is our quality and our technical expertise. Our products are of a high technical quality, yet flexible and easy for customers to use.

Our commitment is to offer high quality service, fast delivery and help with planning. We shall be proud of the work we perform and take care of our customers. To provide customers with security and reliability, we are working with leading brands such as Vimar, Elvox, Satel and WISI.
