

Weland IndustriCentrum AB

Weland IndustriCentrum AB has big and small venues for all kinds of industries and needs. We have facilities for production, storage, office and conference. The total building area is 72,000 m².

Weland Solutions AB and Weland AB have its own production in the premises but we also have external companies with diverse activities. A total of about 400 people work here. Generally, the premises have substantial ceiling height and good loading and un-

loading facilities. The property has overhead cranes, post cranes, good ventilation and modern firefighting equipment.

The offices are usually placed close to production or storage facilities, but there are also separate offices of varying sizes. The high bay warehouse has 11,200 pallet locations operated as warehousing for external companies and companies within the Weland group.
