

## Zinken Weland AB

Zinken Weland AB is one of Sweden's most modern hot dip galvanising companies. We are one of the leading suppliers of hot dip galvanising in western Sweden.

At our facility in Ulricehamn, Sweden, we work hard to be a quality leader in hot dip galvanising. We strive to be a safe and stable partner for all our customers.

We are certified according to ISO 9001: 2008. The certification means that the operations are revised to ensure that the requirements are met.

Hot dip galvanising is the most effective method to corrosion protect steel. The initial cost of hot dip galvanising is low and the maintenance-free lifespan is very long.
